This vantage on the Iraqi street is  
one rarely seen by the American  
public, but it is the most common  
point of view for U.S. soldiers.

These images are not  
intimate—they reflect a distant  
and detached perspective on a  
country that is so empty, so  
desolate, on a situation so dire.

first image of a concrete blast wall through the window of my armored car. These pictures show a fragment of Iraqi daily life taken by a transient passenger in a Humvee; yet they are a window to a world where work, play, tension, grief, survival, and everything in between are as familiar as the events of our own lives. . . .

The Eye of Desert Storm: Inside the Iraqi Army in the First Gulf War. As has been the case since time immemorial, history is almost always written by the victors. The United States of America's rise to global power and dominance is a popular story, one told countless times over. However, what's rarely seen is an Iraqi perspective of the Gulf War. While most observers focus on Saddam's expansionist agenda, they tend to neglect the Iraqi military, which is often a silent
