to Japan is a fantasy world called the Holy Eldant Empire. A guy named Shinichi is the General Manager of Amutech, a company established to foster cultural exchange—otaku culture, that is! And soon Shinichi will need to be not just the purveyor of consumable entertainments, but the savior of the whole Eldant Empire. Wait, what?! It all starts with the arrival of one Prince Rubert, ambassador from one of Eldant's allies. He's, like, a super hunk, and no sooner has he arrived than he drops a total bombshell that leaves the entire imperial court in an uproar. And that's not all: it turns out Rubert and Garius go way back. In fact, in their schoolboy days, they were awfully close, if you know what we mean. (Minori sure does, and it's making her head explode!) The whole thing's on the train to crazy town... but can the Eldant Empire really afford to have Shinichi play conductor?!

The year is 20XX, and Shinichi Kanou is a pretty typical otaku: he loves anime, manga, games, and light novels, but his devotion to the two-dimensional hasn't always made him the most popular guy around. What he doesn't know is that Japan has discovered a portal to another world in the vicinity of Mount Fuji. The people of the Eldant Empire, though, only have eyes for one of Japan's traditional exports: pop culture. Enter Amutech, a purveyor of "general entertainment" that's secretly run by the Japanese government. Shinichi lands a job as the company's general manager. Now he finally has a chance to put his nerd know-how to good use spreading the otaku gospel in the Eldant Empire. And wait... he has to work with a half-elf maid, an empress, AND a female soldier to get the job done?

Kyouhei is the kind of person who cherishes every moment of his peaceful, "normal" everyday life. Choose whichever synonym you like; he just wants a quiet life. However, with his

dad being involved in some really shady businesses, his best friend being a wannabe rockstar, and his schoolmate Sanae... being Sanae, that's easier said than done, but he does his best. One day, he ends up accidentally releasing a naked girl from a coffin, who has no idea what "normal" means. Unfortunately for him, Kyouhei can kiss that peace and quiet goodbye. Now, on top of his dad's lack of regard for anything approaching common sense or decency, his friend's thirst for excitement, and his admirer's... attention, Kyouhei has to deal with a (self-proclaimed) body double android of a princess from some European country? He just wants off this fake fake princess' wild ride!

By all appearances, Western Restaurant Nekoya is a normal restaurant serving normal people-but unbeknownst to the regulars, it also attracts an alternative clientele. Every Saturday, all manner of fantastical beings come to dine, and what is familiar fare to humans can be downright exotic for visitors from beyond. To these customers, Nekoya is known by a different name: Restaurant to Another World. READERS BEWARE: Opening this book may lead to uncontrollable drooling and a grumbling belly!

The climax to the epic Malazan Book of the Fallen series that will determine how the world is ruled. Savaged by the K'Chain Nah'Ruk, the Bonehunters march for Kolanse, where waits an unknown fate. Tormented by questions, the army totters on the edge of mutiny, but Adjunct Tavore will not relent. One final act remains, if it is in her power, if she can hold her army together, if the shaky allegiances she has forged can survive all that is to come. A woman with no gifts of magic, deemed plain, unprepossessing, displaying nothing to instill loyalty or confidence, Tavore Paran of House Paran means to challenge the gods - if her own troops don't kill her first.

Awaiting Tavore and her allies are the Forkrul Assail, the final arbiters of humanity. Drawing upon an alien power terrible in its magnitude, they seek to cleanse the world, to annihilate every human, every civilization, in order to begin anew. They welcome the coming conflagration of slaughter, for it shall be of their own devising, and it pleases them to know that, in the midst of the enemies gathering against them, there shall be betrayal. In the realm of Kurald Galain, home to the long lost city of Kharkanas, a mass of refugees stand upon the First Shore. Commanded by Yedan Derryg, the Watch, they await the breaching of Lightfall, and the coming of the Tiste Liosan. This is a war they cannot win, and they will die in the name of an empty city and a queen with no subjects. Elsewhere, the three Elder Gods, Kilmandaros, Errastas and Sechul Lath, work to shatter the chains binding Korabas, the Otataral Dragon, from her eternal prison. Once freed, she will rise as a force of devastation, and against her no mortal can stand. At the Gates of Starvald Demelain, the Azath House sealing the portal is dying. Soon will come the Eleint, and once more, there will be dragons in the world. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The king of Linevan ordered that his daughter Pacifica be killed because of a prophecy that she would destroy the world, but she survived and now that she is fifteen she must escape the king's assassins who have orders to eliminate her.

This volume presents a comprehensive account of the COVID-19 pandemic, also known as the novel coronavirus pandemic, as it happened. Originating in China in late 2019, the COVID-19 outbreak spread across the entire world in a matter of three to four months. This volume examines the first

responses to the pandemic, the contexts of earlier epidemics and the epidemiological basics of infectious diseases. Further, it discusses patterns in the spread of the disease; the management and containment of infections at the personal, national and global level; effects on trade and commerce; the social and psychological impact on people; the disruption and postponement of international events; the role of various international organizations like the WHO in the search for solutions; and the race for a vaccine or a cure. Authored by a medical professional and an economist working on the frontlines, this book gives a nuanced, verified and fact-checked analysis of the COVID-19 pandemic and its global response. A one-stop resource on the COVID-19 outbreak, it is indispensable for every reader and a holistic work for scholars and researchers of medical sociology, public health, political economy, public policy and governance, sociology of health and medicine, and paramedical and medical practitioners. It will also be a great resource for policymakers, government departments and civil society organizations working in the area.

Pandemics are large-scale epidemics that spread throughout the world. Virologists predict that the next pandemic could occur in the coming years, probably from some form of influenza, with potentially devastating consequences. Vaccinations, if available, and behavioral methods are vital for stemming the spread of infection. However, remarkably little attention has been devoted to the psychological factors that influence the spread of pandemic infection and the associated emotional distress and social disruption. Psychological factors are important for many reasons. They play a role in nonadherence to vaccination and hygiene programs, and play an important role in how people cope with the threat of infection and associated losses. Psychological

factors are important for understanding and managing societal problems associated with pandemics, such as the spreading of excessive fear, stigmatization, and xenophobia that occur when people are threatened with infection. This book offers the first comprehensive analysis of the psychology of pandemics. It describes the psychological reactions to pandemics, including maladaptive behaviors, emotions, and defensive reactions, and reviews the psychological vulnerability factors that contribute to the spreading of disease and distress. It also considers empirically supported methods for addressing these problems, and outlines the implications for public health planning.

When Pacifica was born, a prophecy foretold that she would usher in the apocalypse by her sixteenth birthday, and now--after fifteen years of avoiding the death sentence ordered by her father--word of her existence has reached her home kingdom.

In the tradition of *Fast Food Nation* and *The Omnivore's Dilemma*, an extraordinary investigation into the human lives at the heart of the American grocery store. What does it take to run the American supermarket? How do products get to shelves? Who sets the price? And who suffers the consequences of increased convenience and efficiency? In this alarming exposé, author Benjamin Lorr pulls back the curtain on this highly secretive industry. Combining deep sourcing, immersive reporting, and compulsively readable prose, Lorr leads a wild investigation in which we learn: • The secrets of Trader Joe's success from Trader Joe himself • Why truckers call their job "sharecropping on wheels" • What it takes for a product to earn certification labels like "organic" and "fair trade" • The struggles entrepreneurs face as they

fight for shelf space, including essential tips, tricks, and traps for any new food business □ The truth behind the alarming slave trade in the shrimp industry The result is a page-turning portrait of an industry in flux, filled with the passion, ingenuity, and exploitation required to make this everyday miracle continue to function. The product of five years of research and hundreds of interviews across every level of the industry, The Secret Life of Groceries delivers powerful social commentary on the inherently American quest for more and the social costs therein.
