Although the leading theoretical paradigms of international relations have something to say about regional order, a comprehensive treatment of this subject is missing from the literature. This book suggests that cross-paradigmatic engagement on regional orders can be valuable if it can generate theoretically innovative, testable propositions and policy-relevant ideas.

What does it take to be an “ ideational ” view of regions and regional orders? In international relations theories, the use of “ ideational ” has exploded with the growing popularity of constructivism. But “ ideational ” can mean a whole range of things, such as values, principles, ideology, culture, and identity, among others.

Integration Theory and International Relations Theory: A ...

In international relations, regionalism is the expression of a common sense of identity and purpose combined with the creation and implementation of institutions that express a particular identity and shape collective action within a geographical region. Regionalism is one of the three constituents of the international commercial system. The first coherent regional initiatives began in the 1950s and 1960s, but they accomplished little, except in Western Europe with the establishment of the Europ

Throughout, the book discusses how theories shift within both the "core" and "periphery" (p.5) states and colonies to address the one-sidedness of IR's collective self-narrative. The authors frame the history of IR and ir as an "unfolding of global international society (GIS) over the last two centuries" (p.6).

Summary. When it comes to the study of regional conflicts, realists as a group have been loath to put forward a clear and generalizable theory. This is not to say that realists have not offered insights into the probability of militarized conflict in particular regions. In the early 1990s, for example, John Mearsheimer and Aaron Friedberg offered well-known and controversial arguments for the likelihood of war in Europe and the Far East based largely on the insights of realist logic.

Functionalism (international relations) Functionalism is a theory of international relations that arose during the inter-War period principally from the strong concern about the obsolescence of the State as a form of social organization. Rather than the self-interest of nation-states that realists see as a motivating factor, functionalists focus on common interests and needs shared by states (but also by non-state actors) in a process of global integration triggered by the erosion of state ...
