'Whoever said you can't fool an honest man wasn't one' The Royal Bank is facing a crisis, and it's time for a change of management. Who would not wish for that job? It's a job for life. But, as former con-man Moist von Lipwig is learning, the life is not necessarily for long. The Chief Cashier is almost certainly a vampire. There's something nameless in the cellar (and the cellar itself is pretty nameless), it turns out that the Royal Mint runs

at a loss, and people actually want to know where the money's gone. A 300 year old wizard is after his girlfriend, he's about to be exposed as a fraud, but the Assassins Guild might get him first. In fact lot of people want him dead Oh. And every day he has to take the Chairman for walkies. Everywhere he looks he's making enemies. What he should be doing is . . . Making Money!

Suddenly, condemned arch-swindler Moist von Lipwig found himself with a noose around his neck and dropping through a trapdoor into ... a government job? By all rights, Moist should be meeting his maker rather than being offered a position as Postmaster by Lord Vetinari,

supreme ruler of Ankh-Morpork. Getting the moribund Postal Service up and running again, however, may prove an impossible task, what with literally mountains of decades-old undelivered mail clogging every nook and cranny of the broken-down post office. Worse still, Moist could swear the mail is talking to him. Worst of all, it means taking on the gargantuan, greedy Grand Trunk clacks communication monopoly and its bloodthirsty piratical headman. But if the bold and undoable are what's called for, Moist's the man for the job -- to move the mail, continue breathing, get the girl, and specially deliver that invaluable commodity that every being, human or otherwise,

requires: hope.

A new stage adaptation of one of Pratchett's best-selling novels *The Monstrous Regiment* in question is made up of a vampire (reformed and off the blood, thank you), a troll, Igor (who is only too happy to sew you a new leg if you aren't too particular about previous ownership), a collection of misfits and a young woman discovers that a pair of socks shoved down her pants is a good way to open up doors in a man's army. "One of the funniest English authors alive" (Independent)

This is a book about reading a book, which turns into a different book. But it all ends happily!

When a giant wave destroys his village, Mau is the only one left. Daphne—a traveler from the other side of the globe—is the sole survivor of a shipwreck. Separated by language and customs, the two are united by catastrophe. Slowly, they are joined by other refugees. And as they struggle to protect the small band, Mau and Daphne defy ancestral spirits, challenge death himself, and uncover a long-hidden secret that literally turns the world upside down.

Sam Vimes, watch commander of Ankh-Morpork, is at long last taking a much-needed (and well deserved) vacation. But, of course, this is Discworld®, where nothing goes as planned—and before Vimes can even change his cardboard-soled boots for vacationer’s slippers, the gruff watch commander soon finds himself enmeshed in a fresh fiasco fraught with magic, cunning, daring, and (for the reader more than for poor Vimes) endless hilarity. Did he really expect time off? As Vimes himself says in *Feet of Clay*, “there’s some magical creature called ‘overtime,’ only no one’s even seen its footprints.” Following the

The post was an old thing, of course, but it was so old that it had magically become new again. Moist von Lipwig is a con artist and a fraud and a man faced with a life choice: be hanged, or put Ankh-Morpork's ailing postal service back on its feet. It's a tough decision. The post is a creaking old institution, overshadowed by new technology. But there are people who still believe in it, and Moist must become one of them if he's

going to see that the mail gets though, come rain, hail, sleet, dogs, the Post Office Workers Friendly and Benevolent Society, the evil chairman of the Grand Trunk Semaphore Company, and a midnight killer. Getting a date with Adora Bell Dearheart would be nice, too. Perhaps there's a shot at redemption in the mad world of the mail, waiting for a man who's prepared to push the envelope...

This is how the Discworld began. Here is the sapient pearwood Luggage, a mobile trunk which launders any clothes put in it and incidentally homicidally defends its owner. Here is Twoflower, an innocent tourist in a world of nightmares and fairy tales

From Snuff: 'Vimes' prompt arrival got a nod of approval from Sybil, who gingerly handed him a new book to read to Young Sam. Vimes looked at the cover. The title was *The World of Poo*. When his wife was out of eyeshot he carefully leafed through it. Well, okay, you had to accept that the world had moved on and these days fairy stories were probably not going to be about twinkly little things with wings. As he turned page after page, it dawned on him that whoever had written this book, they certainly knew what would make kids like Young Sam laugh until they were nearly sick. The bit about sailing down the river almost made him smile. But interspersed with the
